

## Capability Statement

**International Precision Products (IPP) is one of the leading providers of specialised electromechanical and opto-electrical components and subsystems for the aerospace and defence industry, serving European customers since 1973.**

IPP provides technical, engineering, sales and logistics support for its products via strategically located offices throughout Europe and in Australia.

Over the years IPP has worked successfully with its principals to build a range of highly specialised products designed to add value to our customers solutions.

We are fully accredited under ISO 9001:2015, and by major Aerospace and Defence manufacturers such as BAE Systems, Augusta Westland, SAAB, Thales, Airbus, Leonardo, Rheinmetall, EADS, Navantia, Selex, Indra and others, so you can be assured that we meet the highest quality standards required by the Aerospace and Defence Industry.

Our team of highly experienced Sales / Engineering Managers based across Europe and in Australia will help you find the solution that is right for you. They speak your language and each one works closely with our principals to get you the product you need at the right time and at the right price.

Our aim is to make sure that our customers receive the best value for money solution to their requirements.
